Keurig is a worldwide industry leader in single-cup coffee brewing technology. The company was founded in 1992 by coffee lovers who believe that coffee should always be served fresh, whether at home or at the office, just as in a gourmet coffee house.

In June 2006 Keurig became a wholly owned subsidiary of Green Mountain Coffee Roaster, which is recognized as a leader in the specialty coffee industry. In January 2008 Keurig moved their corporate offices to Reading. Today, Keurig home brewers can be found in over 9000 retail stores. Dave Manly will tell us about the corporate history, introduce you to the Keurig line of brewers and share the Keurig success story.
